LIMITED WARRANTY

Adesso® provides a one year limited warranty for all of its products against defects in materials and workmanship.

During this period, Adesso® will repair or replace any product which proves to be defective. However, Adesso® will not warrant any product which has been subject to improper handling, abuse, negligence, improper installation or unauthorized repair. The warranty will not cover products installed with components not approved by Adesso® and products where the sealed assembly trace has been broken.

If you discover a defect, Adesso® will, at its option, repair or replace the product free of charge, provided you return it during the warranty period with freight charges pre-paid to Adesso®. Before returning any product, you must obtain a Return Merchandise Authorization number (RMA). This RMA # must be clearly marked on the outside of the package you are returning for warranty service. Be certain to also include your name, shipping address (no PO Boxes), telephone number, and a copy of the invoice showing proof of purchase in the package.

Scan Angle: Roll: ±360°, Pitch: ±45°, Yaw: ±40°
Motion Tolerance: 5 inches per second (IPS)
Minimum Bar Width (1D): 5 mil/0.127 mm @ PCS 90%, Code 39
Minimum Bar Width (2D): 10 mil/0.254 mm @ PCS 80%, Data Matrix.
Print Contrast: PCS 30% EAN13 @10mil
Indicators (LED): Blue LED successful scan / Red scanning beam
Input Voltage: 5 VDC ±0.5V
Battery Type: Lithium Polymer Rechargeable Battery
Charge Time: 5-6 hours
Cable: 6' (1.8 meters)
Dimensions: 6.75 (L) x 3.7 (W) x 2.7 (H) in. (172 x 94 x 68 mm)
Weight: 0.38 lb (174 g; Cradle excluded)
Operating Temperature: 0°C ~ 50°C (32°F ~ 122°F)
Storage Temperature: -40°C ~ 70°C (-40°F ~ 70°F)
Humidity: 5% ~ 95% RH (non-condensing)

REQUIREMENTS

- Connectivity Interface: Windows: 7 & above; Mac OSX & All iPad, iPhone, & Android OS Devices
- Interface: Bluetooth®

DESCRIPTION

CONTENTS

CHARGING THE DEVICE

Charging the Battery

1. The scanner is charged via USB cable while sitting on its charging cradle. Connect the USB cable directly into the scanner cradle.
2. Connect the other end of the USB cable to the host USB power (PC or socket) to begin charging.
3. The LED indicator will initially flash **RED** to show the scanner is on the charging cradle. The LED will turn solid **GREEN** when charging is completed. It takes 5-6 hours to be fully charged.

CONNECTING THE NUSCAN 2500TB WITH YOUR DEVICE

1. Remove scanner from cradle and press the barcode scanner's trigger until the LED light on top of scanner flashes **BLUE** and then release trigger (this can take up to 30 seconds).

2. Please proceed to the instructions that reference whatever device you are using (Windows, Mac, iOS, Android...)

CONNECTING WITH WINDOWS OS DEVICE

- Go to your **Windows Start Menu** (Windows icon)
- Click on **"Settings"** (Gear icon)
- Click the category **"Devices"** (Keyboard icon)
- Once inside the "Devices" category, click the word **Bluetooth** located on the left column (Your Windows device will automatically start searching for any Bluetooth Devices in the area).
- You should see exactly what is shown below. Once you have identified the **"Nuscan 2500TB"**, click the word **"Pair"**

- Once you have clicked the word "Pair," Windows will assign your Nuscan 2500TB a driver and connect to your scanner. You will see the Window below if successfully connected and the LED light on the top of the Nuscan 2500TB will turn solid **BLUE**.

CONNECTING WITH MAC OS DEVICE

- Go to your Mac's Bluetooth icon (Bluetooth symbol) located in the top upper right corner of your desktop and click on it.
- From the drop down menu, click on "Set up Bluetooth Device" (Your Mac will automatically start searching for any Bluetooth Devices in the area)
- You should see exactly what is shown below. Once you have identified the "Nuscan 2500TB", click the word "Continue" to proceed.

- Once you have clicked the word "Pair," Windows will assign your Nuscan 2500TB a driver and connect to your scanner. If successfully connected and the LED light on the top of the Nuscan 2500TB will turn solid **BLUE**.

CONNECTING WITH YOUR IOS DEVICE

- Locate your iPad's or iPhone's **"Settings Icon"** (Gear icon) on your home screen and tap on it with your finger.
- Once in your settings, click on **"Bluetooth"** in the left column. (Your iOS device will automatically start searching for any Bluetooth Devices in the area). You should see exactly what is shown below. Once you have identified the **"Nuscan 2500 TB"**, click the word.

- Once you have clicked the word "Nuscan 2500TB," your iOS device will connect to your scanner. You will see the Window below if successfully connected and the LED light on the top of the Nuscan 2500TB will turn solid **BLUE**.

RETURN TO FACTORY DEFAULT

Factory Default: (Scan these three barcodes in vertical order)

SCANNING MODE:

Manual Trigger:

Continuous:

SLEEP TIMER SETTINGS

Scan below barcodes to set different sleep timers for the scanner. By default sleep timer is set to 1 minute.

Remark: Press the power button to restore the connection with device.

iOS On Screen Keyboard

When the scanner is first connected to your iOS device, the on screen keyboard will disappear because the device recognizes the scanner as a keyboard input. Scan the below barcode and the on screen keyboard will reappear.

INVENTORY MODE

Scan below barcode to enter "Inventory Mode". In inventory mode, the scanner will not display the barcodes you scan and will not output them onto your device. Instead, the scanner will store them in its built-in memory chip.

Inventory Mode

Scan below barcode to show the total count of the number of barcodes stored in inventory mode.

Total Count

Scan below barcode to upload your stored barcodes.

Upload Barcodes

Scan below barcode to erase your stored barcodes.

Clear Memory

NORMAL MODE

Scan below barcode to exit "Inventory Mode" and enter "Normal Mode". In normal mode your scanned barcodes will be uploaded into your device as your scanning.
