LIMITED WARRANTY

Adesso® provides a one year limited warranty for all of its products against defects in materials and workmanship.

During this period, Adesso® will repair or replace any product which proves to be defective. However, Adesso® will not warrant any product which has been subject to improper handling, abuse, negligence, improper installation or unauthorized repair. The warranty will not cover products installed with components not approved by Adesso® and products where the sealed assembly trace has been broken.

If you discover a defect, Adesso® will, at its option, repair or replace the product free of charge, provided you return it during the warranty period with freight charges pre-paid to Adesso®. Before returning any product, you must obtain a Return Merchandise Authorization number (RMA). This RMA # must be clearly marked on the outside of the package you are returning for warranty service. Be certain to also include your name, shipping address (no PO Boxes), telephone number, and a copy of the invoice showing proof of purchase in the package.

Current Input:	USB Type-C,PD 3.0 PD 5V-20V, Max 5A, up to 100 W
DP Max Refresh Rate:	8K/30HZ
HDMI Max Refresh Rate:	4K/60Hz
Dimension:	6.2" x 3.1" x 1.2" (157 x 78x 30mm)
Weight:	7.6 oz (225g)
Cable Length:	93.4 Inch (100 cm)

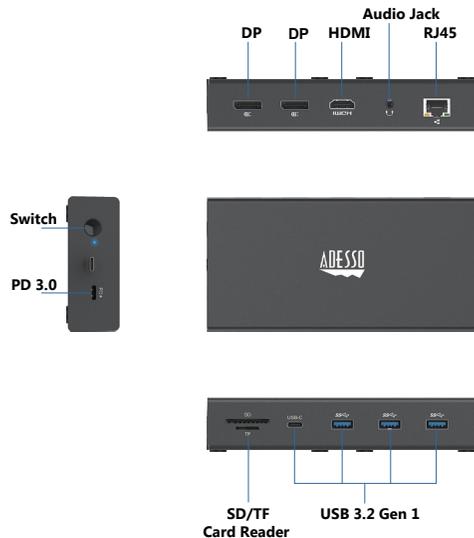

REQUIREMENTS

Operating System: Windows® 11/10 / 8 / 7 ,
 MacOS® 10.3 and above,Android , Chrome
 Connectivity Interface: An Available USB-C port

CONTENTS

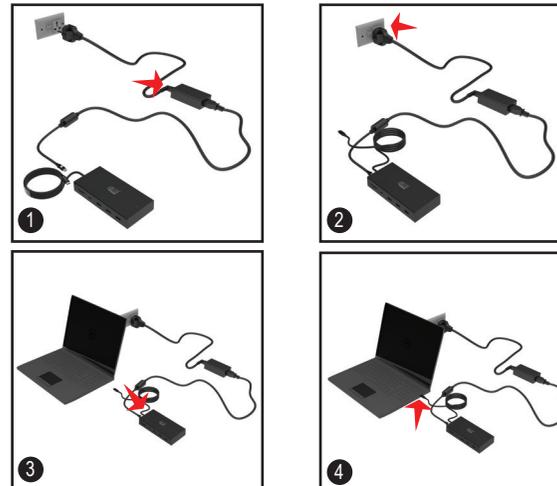

1x AUH-4060 1x Quick Start Guide 1x 100 W PD Adapter

OVERVIEW

GETTING STARTED

1. Insert power cord into the power adapter
2. Plug in the power cord into an outlet.
3. Insert the USB-C cable into the PD port of the docking station.
4. Plug in the USB-C connector into a USB-C port on your device.

GENERAL INFORMATION

About USB 3.0 and USB 3.2 Gen 1

USB 3.0 is also known as USB 3.2 Gen 1. This connectivity standard offers speeds up to 5Gbps.

About USB-C

Not all USB-C ports support the full functionality of the USB Type-C standard. Some ports might only provide data transfers, and might not support video or USB Power Delivery 3.0. For this adapter to operate properly, check to ensure that your host laptop supports DP Alt Mode and USB Power Delivery 3.0.

If your laptop supports DP Alt Mode, but not USB Power Delivery, then the multiport docking station will be powered by your laptop's host USB-C port.

Thunderbolt™ 3 technology also uses the USB-C connector, so you can connect the adapter to a Thunderbolt 3 port. The adapter will connect to the Thunderbolt 3 port at the USB speed of 5Gbps.

USB Power Delivery 3.0 is a specification that allows power (up to 100 watts) to be sent over a USB-C or Thunderbolt™ 3 cable that supports the specification. The adapter supports USB Power Delivery 3.0, delivering up to 100 watts of power through the USB-C or Thunderbolt 3 port on your laptop.

DisplayPort Alternative Mode is a specification that allows a video signal to transfer over USB-C.
