LIMITED WARRANTY

Adesso provides a one year limited warranty for all of its products against defects in material and workmanship.

During this period, Adesso will repair or replace any product which proves to be defective. However, Adesso will not warranty any product which has been subject to improper freight handling, shipping abuse, neglect, improper installation or unauthorized repair. The warranty will not cover products installed with components not approved by Adesso and products where the sealed assembly trace has been broken.

If you discover a defect, Adesso will, at its option, repair or replace the product at no charge to you provided you return it during the warranty period with freight charges pre-paid to Adesso. Before returning any product, you must obtain a Return Merchandise Authorization number (RMA). This RMA # must be clearly marked on the outside of the package you are returning for warranty service. Be certain to also include your name, shipping address (no PO Boxes), telephone number, and a copy of the invoice showing proof of purchase in the package.

CONTENTS

HARDWARE INSTALLATION

1. Turn on your computer.

3. Turn on your mouse with the ON/OFF switch and your it will automatically pair with the inserted USB receiver.

DESCRIPTION

2. Remove the back battery cover of the iMouse E30 and pull out and insert the wireless receiver into your computer's USB port. Your operating system will automatically detect and assign a driver.

ADVANCED DRIVER FEATURES

The iMouse E30 comes with a driver for customization which allows you to customize your mouse to your preference. Change the DPI colors, reassign mouse buttons, and assign macro keys all with this included driver.

1. Insert the Driver CD into your computer's CD-ROM drive for installation. If the software installer menu does not automatically run, please double click on your CD drive (e.g. D:, E:, etc..) and follow the step-by-step prompts to install the driver.

2. Once you have followed the installation steps, go into your "system tray" by clicking on the arrow located to the left of your Windows clock and click on the Gaming Mouse Icon ()

4. Once you click on the Gaming Mouse Icon, it will bring up the driver menu as shown below. Click on "Sensitivity" to change the speed of your mouse cursor as well as adjust DPI settings. Click on "Manage Macros" to assign short commands to your mouse.

5. Once you click on the Gaming Mouse Icon, it will bring up the driver menu as shown below. Click on "Color Control" to change, reassign or remove all mouse colors, if preferred.

3. Once you click on the Gaming Mouse Icon, it will bring up the driver menu as shown below. Click on "Button Assignment" to change your mouse buttons.
