Limited Warranty

Adesso provides a one year limited warranty for all of its products against defects in material and workmanship.

During this period, Adesso will repair or replace any product which proves to be defective. However, Adesso will not warranty any product which has been subject to improper freight handling, shipping abuse, neglect, improper installation or unauthorized repair. The warranty will not cover products installed with components not approved by Adesso and products where the sealed assembly trace has been broken.

If you discover a defect, Adesso will, at its option, repair or replace the product at no charge to you provided you return it during the warranty period with freight charges pre-paid to Adesso. Before returning any product, you must obtain a Return Merchandise Authorization number (RMA). This RMA # must be clearly marked on the outside of the package you are returning for warranty service. Be certain to also include your name, shipping address (no PO Boxes), telephone number, and a copy of the invoice showing proof of purchase in the package.

- 1x Quick Start Guide

Microphone Setup

Power Socket

1. Plug one end of the USB cable into the USB port of the microphone and connect the other end to the computer. After connecting the audio cable, you can start working directly.
2. If you need volume control, turn the knob to the right.
3. The microphone is powered by your device's USB port, meaning that in most instances you can just plug the microphone in and get started right away. For non-standard USB ports, a powered USB hub may be required. This is a "Plug and Play" USB device that compatible with both Windows and Mac computers.

Getting Started

Connect the microphone with your computer, prepare a wired headphones to hear the voices from the microphone

Adjusting the input level on a Windows computer

1. Open the Start menu and click on 'Control Panel'

2. Open the 'Sound' preferences from within the Control Panel folder.

3. Open the 'Recording' tab and double click on '2-USB Audio LCS' from the list of devices.

4. Adjust the input level using the slider.

Adjusting the input level on a Mac OS computer

1. Open the Start menu and click on 'Control Panel'

2. Click on 'Sound' to open the sound options to adjust the input volume.
