The Adesso® SlimTouch® Mini Keyboard combines the control of an integrated touchpad with the features of a standard keyboard to provide a small, powerful input device. This touchpad includes a scrollbar for faster browsing and productivity, without the need of a mouse. This thin and compact keyboard is ideal for slimline PCs, notebooks, POS stations, kiosks and any small space station.

■ Built-In Touchpad

The SlimTouch® Mini Keyboard built-in touchpad eliminates the need for a mouse and saves valuable desk space. The GlidePoint® Touchpad puts computer control at your fingertips. Navigate, scroll, zoom, access files and enter data all with just a light touch of the finger.

■ Compact & Portable

This mini keyboard is designed with a Windows® key layout and features an embedded numeric keypad, for easy data inputting. The keyboard is less than 12" wide and is a great space saver, it is ideal for use in POS, kiosks, warehouses, manufacturing environments and any small working area.

■ Wrist Support

The keyboard's molded wrist rest provides extra comfort and support while typing. The built-in touchpad is also conveniently located in the center of wrist rest so minimal arm movement is needed to control cursor.

■ Membrane Keys

The low profile membrane keys offer fast typing, a great tacticle response and a lifecyle of more than five million keystrokes.
