EasyTouch™ 640EB Multi-color Programmable Mechanical Gaming Keyboard

■ Blue Mechanical Switch

The blue mechanical switch provides a tactile and clicky feedback where you feel and hear clearly when a key has been pressed. These switches are also built to last with a lifespan of 50 million keystroke lifecycle.

■ 16.8 Million Color

The backlit LEDs have a 16.8 million color option. Through the programmable driver, you can define each key with its own unique color tailored to your specific taste!

■ Double Injection Keycaps

The keycap legends will never wear out because the keycaps are made with two plastic layers molded into one another, making worn out keycaps a thing of the past!

■ Multimedia and LED Hotkeys

The AKB-640EB has various built-in hotkeys. With just a simple click you can enjoy the convenience of different windows functions and various lighting effects.
