Adesso's CyberTrack Q1 1.3 Megapixel Desktop Webcam allows you to record and share colorful VGA quality video with fine detail. This webcam offers you broad Instant Messenger compatibility, so you can enjoy video conferencing with today's most popular Instant Messenger applications. Also enjoy the integrated wide-angle microphone, that captures and delivers everything you have to say, and the auto light sensors, that keeps your image visible even with dim lighting. In addition to all these great features, your CyberTrack Q1 includes Webcam Companion 4 software that lets you work like a social media professional, take snapshots, create 3D videos, edit videos, add frames to images and instantly share on popular social media sites with the click of a button.

■ **1.3 Megapixels CMOS Sensor with up to 5MP Image Resolution**
This webcam features a true 1.3 Megapixels CMOS image sensor that provides a crisp, colorful and clear VGA quality video and snapshot images, at a maximu of 5 megapixels.

■ **Built-In Microphone**
The built-in microphone provides you with remarkable clarity, to ensure every conversation is heard without the hassle of a headset.

■ **Auto Light Sensors**
4 LEDs automatically activate when the webcam senses dim lighting, so you can communicate in all lighting environments.

■ **Image & Video Editing Software**
Use the included ArcSoft® WebCam Companion 4 software to enhance your CyberTrack V10 features. This software lets you create 3D videos, take snapshots, add frames to images, create masques, and much more!
