Adesso's CyberTrack V1 Desktop Webcam features a true 300k pixels sensor that allows you to record and share colorful VGA quality video with fine detail. This webcam offers you broad Instant Messenger compatibility, so you can enjoy video conferencing with today's most popular Instant Messenger applications. The webcam design includes an integrated wide-angle microphone that ensures your voice is heard loud and clear every time —it's like being in the same room with the other person! In addition to all these great features, your CyberTrack V10 includes Webcam Companion 4 software that lets you work like a social media professional, take snapshots, create 3D videos, edit videos, add frames to images and instantly share on popular social media sites with the click of a button.

Broad Instant Messenger Compatibility

1.3 Megapixels (CMOS Sensor)

Built-In Microphone

■ **300K Pixels CMOS Sensor with up to 1.3 MP Image Resolution**
A true 300K pixels CMOS sensor provides crisp, colorful VGA quality video at a maximum of 1.3 Megapixels. Every video call and captured photo will look sharp and clear.

■ **Built-In Microphone**
The built-in microphone provides you with remarkable clarity, to ensure every conversation is heard without the hassle of a headset.

■ **Image & Video Editing Software**
Use the included ArcSoft® WebCam Companion 4 software to enhance your CyberTrack V10 features. This software lets you create 3D videos, take snapshots, add frames to images, create masques, and much more!
