

# EZScan 1000 Film Scanner

www.adesso.com

With the Adesso EZScan 1000 Film Scanner quickly and easily convert old filmstrips and slides into digital images for instant sharing or digital storage. This film scanner conveniently connects to your computer via USB connection and is USB bus powered, meaning no additional power supply cable is needed; the same USB connection to your computer powers the digital film scanner. The Adesso EZScan 1000 is extremely user-friendly, just press the one-touch button and images are instantly scanned and on your computer screen in high quality 1800 DPI images. The EZScan 1000 conveniently includes NewSoft Presto! ImageFolio 4.5 editing software, so you can crop, adjust color or retouch your digital images. Along with all these great features, the EZScan 1000 is also lightweight and portable, so you can convert your films into digital files anywhere.

### Filmstrip and Slide Digital Converter

The EZScan 1000 is fully equipped with a high-resolution 5.0 megapixel CMOS sensor, automatic color balance and exposure control to convert all your films and slides into 1800 DPI high-quality images.

### Image Editing Tools

The EZScan 1000 includes NewSoft Presto! ImageFolio 4.5 to edit your newly converted digital files. Use this software to make color corrections, crop, add shapes and much more!

### Compact & Mobile

The Adesso EZScan 1000 is lightweight and portable, so you can use on any computer in your home or take with you on the road for additional film scanning.

### User-Friendly

The EZScan 1000 is easy to setup and operate. To scan, simply click the one-touch transparency or negative button on the film scanner and instantly your images appear on your computer screen.
