

■ Product Overview

The Adesso® iMouse G1 Illuminated Gaming Mouse is the ideal pointing device for the avid gamer. Features a illuminating breathing light. An Ergonomic Design that makes long usage less stressful on your arm and wrist. Switching DPI In addition, the optical sensor technology keeps the device precisely on point and lets you work on most surfaces without needing a mouse pad or the hassle of clogged mouse ball.

■ Illuminating Blue Light

Lighted mouse allows you to use the mouse in low-light, highly technical or gaming situations where every second and measure of precision makes a big difference in winning or losing a game or putting a dimension in a drawing.

■ Ergonomic Design

The iMouse G10 ergonomic design provides a carefully crafted shape with natural curves that eliminate hand strain, improve precision and allows comfortable working or playing for hours.

■ DPI Switching

Quickly allows you to switch between the varying computer environments that you work and play in through out the day. Low resolution for browsing, while high resolution for CAD Design or hi-tech gaming is only a click away.

■ Enhanced Optical Engine

This mouse features an optical sensor that improves speed, accuracy and reliability without hassle of clogged mouse ball.
