iMouse W100 Bluetooth Waterproof TouchScroll Laser Mouse

The Adesso iMouse W100 is a unique and durable wireless water resistant mouse with an innovative touch scroll pad, that makes navigating easier and more comfortable. The Bluetooth wireless technology lets you work freely for up to 30 feet, at any angle, and with no space constraints. The water resistant design lets you wash away germs and bacteria with soap and water or with liquid cleansers, with no damage to your mouse. The comfortable touch scroll pad design lets you easily scroll up and down your screen with the touch of one finger, reducing hand strain and providing many hours of comfortable use.

■ Bluetooth 3.0 Wireless Technology

Bluetooth wireless technology offers 30 feet of wireless freedom, plus lower battery consumption and higher security encryption.

■ Advance Touch Scroll Pad

Now scroll up and down with the touch of one finger. Replace your traditional scroll wheel mouse with the advanced and comfortable touch scroll pad.

■ Waterproof

The iMouse W100 can be cleaned with soap and water or other liquid cleansers to eliminate germs. The silicon ring between the top and bottom covers creates a waterproof seal preventing water from seeping into mouse.

■ Laser Sensor

This mouse is equipped with the laser sensor that lets you work on any surfaces with better accuracy and reliability than optical mice.
