

iMouse W1

Touch Scroll Waterproof Mouse

www. adesso.com

The Adesso iMouse W1 is a unique and durable water resistant mouse with an innovative touch scroll pad, that makes navigating easier, without the hassle of a scroll wheel. The water resistant design lets you wash away germs and bacteria with soap and water or with liquid cleansers, with no damage to your mouse. The comfortable touch scroll pad design lets you easily scroll up and down your screen with the touch of one finger, reducing hand strain and providing many hours of comfortable use.

■ Advance Touch Scroll Pad

Now scroll up and down with the touch of one finger. Replace your traditional scroll wheel mouse with the advanced and comfortable iMouse W1 touch scroll pad.

■ Waterproof

The iMouse W1 can be cleaned with soap and water or other liquid cleansers to eliminate germs. The silicon ring between the top and bottom covers creates a waterproof seal preventing water from seeping into mouse.

■ Optical Sensor

This mouse features an optical sensor that improves your cursor's speed, accuracy and reliability, without the hassle of clogged mouse ball.
