

MRP-16CD 16" POS Cash Drawer

www.adesso.com

Adesso MRP-16CD features a classic steel construction with removable insert and coin case. Its sturdy structure with a heavy-duty ball bearing rollers is able to hold a maximum weight load of up to 50 kg.

This basic cash box secured with 3-position locking latch alone with the flexible insert case not only provides effortless security, but also ensures high performance and efficiency. Adesso MRP-16CD is the best choice for quality, dependability, and durability.

■ Adjustable Dividers

The removable case comes with bill and coin dividers which can be easily installed for customized storage space options.

■ 3-Position Key Lock

Each cash drawer comes with two coded keys. The 3-position lock latch features three functions: Lock the drawer, Unlock the drawer, and Unlock the mechanism and allow tray to release and open.

■ Ball Bearing Rollers

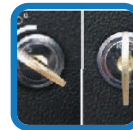

Heavy-duty ball bearing rollers increase the performance while decreasing the noise during operation at the same time.

■ Emergency Release Lever

The drawer can be unlocked manually by the hidden lever in case of emergency.
