NuScan 500 5-Megapixel Visual Presenter

The Adesso NuScan 500 5-Megapixel Visual Presenter is the ideal tool for presentations, image capturing and video recording. With this visual presenter and your computer, you can capture real-time images of 3D objects (up to 8.3 x 11.7 x 15" in size), magazines, books, documents, pictures and business cards and present through a monitor or projector. The unique down-facing lens makes repetitive image capturing, demonstrations, tutorials and lectures comfortable and simple. Along with these great features, use the included ArcSoft® Medialmpression HD software with your NuScan 500 to take snapshots or record videos of just about anything, easily edit both images and videos with the advanced editing tools, plus enjoy the convenience of sharing files directly from software. ABBYY® FineReader software also accompanies your NuScan 500 and offers an Optical Character Recognition (OCR) function that scans your captured documents and extracts text, making it easy to share information in other applications without retyping. The NuScan 500 combines all the great features of today's most popular image capturing devices into one powerful product.

ArcSoft **MediaImpression® HD**

Capture

The NuScan 500 offers a unique down-facing lens with a shooting area of 8.3" x 11.7" perfect for capturing still images or video recordings of documents, pictures or 3D objects. Use the ArcSoft® MediaImpression 3 HD bundled software to get a maximum of 5MP image resolution and 3 MP video resolution.

Edit

Enjoy easy-to-use photo and video editing tools that let you customize every detail. Easily erase red eyes, retouch images, adjust colors, rotate, crop and much more. Also enjoy adding cool transitions, themes and text to your videos and slideshows with one click.

Digital Filing

Organize and view all your captured images and videos in one location. Staying organized couldn't be easier, use the advanced auto face and scene tagging functions to automatically have your images and videos sorted by face detection or similar scene surroundings.

Share

Sharing your captured images or video recordings couldn't be easier! Use the included software to share files directly through email or to popular social networks like: Facebook, YouTube, Twitter, Flickr, and Vimeo. Sharing your image and video files is as simple as a one click!

POWERED BY ABBYY **FINEREADER**

OCR

ABBYY® FineReader Optical Character Recognition (OCR) software extracts text and pictures from NuScan 500 captured images of documents, books, magazines and any other images containing text. This software will convert your images into PDF, Word or Excel files with editable text boxes and picture images.

Application

- **Education (e.g. Schools and Universities)**
Use for lectures and presentations.
- **Medical (e.g Hospitals)**
Use to archive health records digitally.
- **Government (e.g. DMV)**
Use to archive documents or IDs digitally.
- **Legal (e.g Courts and Law Offices)**
Use to archive legal documents digitally and to present evidence in court.
- **Financial Institutions (e.g Banks)**
Use to archive financial documents, checks, deposit slips and those alike digitally.
- **Enterprise (e.g Corporations and Small Businesses)**
Use for presentations, communication and to archive important documents.

Eco-Friendly

The NuScan 500 is an eco-friendly device that provides an easy way to communicate electronically, eliminating the need of printing and giving you the power to be green.
