Vibrational Speakers

The built-in vibrational speakers with the 50 mm neodymium magnetic drivers amplify the bass sound, making you feel the extra “kick” when the bass sounds are introduced.

Virtual 7.1 Surround Sound

The Xtream G4 offers virtual 7.1 surround sound system through its audio driver. This virtual system mimics the audio effect of a multi-speaker system set up by using different algorithms and simulations through its driver.

Audio Equalizer Driver

Audio equalizer driver offers different customizations for your headset and allows you to customize your headset to play treble, middle, and bass sounds at your favorite decibel levels.

Comfortable Fit & Wear

The earcups and headband are adjustable to ensure the perfect fit, while the custom padding provides a soft comfortable cushion.

Built-in Noise Cancelling Microphone

The built-in microphone is omnidirectional which picks up sound with reliability and is flexible which allows you to adjust the position for optimal performance. The built-in noise cancelling technology helps filtering out unwanted noises from the background, delivering your voice in the most clear and precise manner.

Control Console

The control console provides quick access to some of the frequently used settings such as muting your microphone/-headset and controlling the headset volume.

LED lighting

The LED lighting design provides a unique look and aura to the overall design of the headset.
