

The Adesso AFP-400 is a state-of-the-art desktop fingerprint reader designed to provide secure and convenient authentication for various applications. Featuring advanced AES-256 encryption and capable of recognizing up to 10 fingerprint IDs per computer, the AFP-400 offers reliable biometric security for users. With its USB-C connectivity and 360-degree all-around detection capability, the AFP-400 ensures fast and accurate fingerprint recognition, making it ideal for both personal and business use.

■ Passkey

Compatible with applications that support passkey such as Microsoft office 365, Outlook, FIDO2, WebAuthn, which allows for web apps to secure user authentication in a simple way to protect users from phishing attacks.

■ Built in Fingerprint Reader

Enterprise-grade secure with Match-in-Sensor Fingerprint Technology combines superior biometric performance and 360° readability with anti-spoofing technology, while exceeding industry standards for false rejection rate (FRR 1.8%) and false acceptance rate (FAR 0.00001%).

■ AES-256 Encrypted

With AES-256 encryption, the AFP-400 guarantees robust protection for sensitive data. This military-grade encryption standard ensures that biometric information used on the device remains secure, safeguarding against unauthorized access or tampering.

■ Windows Hello Compatible

The AFP-400 is fully compatible with Windows Hello, Microsoft's advanced biometric authentication system. Users can enjoy the convenience of logging into their Windows devices quickly and securely using their fingerprint data stored on a computer, enhancing both security and user experience.

■ TAA Compliant

The AFP-400 meets the requirements of the Trade Agreements Act (TAA), ensuring compliance with government procurement policies. This compliance makes the AFP-400 an excellent choice for government agencies, educational institutions, and businesses seeking reliable and compliant security solutions.

Dongle Specifications:

Dimensions: 4.5" x 2.7" x 1.4" (116 x 69 x 36 mm)
Weight: 0.2 lb. (95 g)

Fingerprint Specifications:

Security IP: AES-256/ SHA256/ ECC256/ TRNG
Fingerprint IDs: 10
Detect: 360 degree all round
False Acceptance Rate: under 1/100000
False Rejection Rate: under 1.8%
Matching time: 0.05 second
Matching type: matching on chip (MOC)

Requirements:

Operating System: Windows 10/11 and later
Connectivity Interface: USB-C port

Includes:

AFP-400-TAA
