# AKB-150UB Desktop Ergonomic Keyboard

The AKB-150UB Is an ergonomic USB keyboard, The design of this keyboard with splitted key zones and gently sloped shape encourages natural position of hands, wrists, and forearm in maximum comfort for long use.

Ergonomic Shape

Integrated Palm Rest

Split Key Design

Multimedia and Internet Controls

### Ergonomic Shape

The ergonomic design of this keyboard along with its gently curved shape encourages natural typing positions for maximum comfort during long use.

### Integrated Palm Rest

The integrated palm rest positions your hands at a natural resting position. This helps relieve joint and back pain, spinal discomfort, and improves typing posture.

### Keyboard Split Key Design

Standard keyboards force your hands to be close to each other while split key keyboards create a wider distance between your hands. This distance helps alleviate strains on the neck and back that would otherwise build up using standard keyboards.
