

EasyTouch™ 630FB

Antimicrobial Fingerprint Keyboard

Built-in Fingerprint

Enterprise-grade secure with Match-in-Sensor fingerprint technology combines superior biometric performance and 360° readability with anti-spoofing technology, while exceeding industry standards for false rejection rate (FRR 1.8%) and false acceptance rate (FAR 0.00001%)

AES 256 Encrypted

With AES 256 encryption, the AKB-630FB guarantees robust protection for sensitive data. This military-grade encryption standard ensures that biometric information stored on the device remains secure, safeguarding against unauthorized access or tampering.

Windows Hello Compatible

The AKB-630FB is fully compatible with Windows Hello, Microsoft's advanced biometric authentication system. Users can enjoy the convenience of logging into their Windows devices quickly and securely using their fingerprint, enhancing both security and user experience.

Antimicrobial

Made with antimicrobial material which prevents the growth of harmful bacteria and protects against the buildup germs between washings.

TAA Compliant

The AKB-630FB meets the requirements of the Trade Agreements Act (TAA), ensuring compliance with government procurement policies. This compliance makes the AKB-630FB an excellent choice for government agencies, educational institutions, and businesses seeking reliable and compliant security solutions.
