

EasyTouch-130SB

Desktop Mechanical Keyboard with Smart Card Reader

The Adesso EasyTouch-130SB is a mechanical keyboard designed for both efficiency and security. Featuring a built-in smart card reader, it enables seamless authentication for secure access to sensitive systems and data. Its design ensures a comfortable typing experience while saving desk space, making it an ideal solution for offices, healthcare environments, and secure workstations.

■ Built-in Smart Card Reader

The built-in Smart Card Reader brings extra security and ease for banking transactions, identification systems, secure web applications, and secure logon. Due to its secure nature, smart card keyboards are extensively used by industries like banking, healthcare, e-commerce, and government agencies. This device supports multiple international standards including ISO7816 for IC card standard, PC/SC 2.0 for Windows Smart Card standard, Microsoft WHQL, EMV for Europay MasterCard Visa Standard and USB-IF CCID standard.

■ CoPilot Ai Hotkey

The Copilot AI hotkey on your keyboard provides instant access to an advanced AI assistant designed to assist you in various tasks. Simply press the designated hotkey, and Copilot AI will be ready to generate code, provide creative suggestions, or assist you with language-related tasks. It's your quick and efficient way to harness the power of AI right at your fingertips.

■ Red Mechanical Switches

The Red mechanical switch provides a quiet and tactile feedback where you feel and hear clearly when a key has been pressed. These switches are also built to last with a lifespan of 50 million keystroke lifecycle

■ 2X Print Size

The 2X size print on the keycaps provide excellent contrast and stronger appeal over traditional keyboards that have small, hard-to-read printing.
