Portable Ring Design

Weighing at less than 3 ounces, the NuScan 4300B is extremely light weight and portable, making it easily the perfect scanning solution wherever you go.

Bluetooth Wireless Technology

Connect the scanner to your iOS/Android device or PC with ease and enjoy scanning barcodes wirelessly up to 50 feet away.

Drop Protection

With its drop protection and rugged design, the NuScan 4300B can withstand accidental drops of up to 5 feet.

Long Scanning Range

The 2D CMOS decoding engine is able to scan barcodes up to 12 inches scan depth.

Barcode Scanners

NuScan 4400T

USB 2D Fixed Mounted Scanner

Auto Scanning

Automatically scan any barcode as you go without the need to press a trigger with the 2D cross laser aimer.

2D Scanning Engine

Easily and instantly read 2-dimensional barcode symbolologies such as the most common QR Code, PDF 417, and Data Matrix. It can also read a majority of 1D barcodes.

2D Barcodes:

Waterproof

IP67 Rated. Sealed with a silicone plastic material, this scanner is 100% waterproof and can be cleaned with soap and water or other liquids cleaners. Ranked as a IP67 Waterproof Standard, this device can withstand being submerged in water for up to 30 min up to a 3 ft depth.

Antimicrobial

The scanner is made with antimicrobial substances to keep away germs and viruses.

Antimicro

Superior Scanning Performance

The CCD sensor can scan the majority of 1D symbologies at a comfortable distance of up to 12" away. The 200 scans per second rate offers fast and accurate scanning results for faster productivity and reliability.

Drop Protection

With the scanner's durable CCD sensor engine design and its durable silicone plastic material, it makes the Nuscan 2400 less likely to become damaged due to accidental drops from as high as 20 ft off the ground.

AKB-110B

Mini Keyboard (Black)

Less than 12" wide for space saving

The mini size keyboard is less than 12" wide, and is an impressive space saver for desktops in homes or offices. It is ideal for use in POS, kiosks, warehouses, manufacturing environments, or in any small working area.

Mini keyboard featuring 87 keys

The mini size keyboard is designed with 87 keys, and is equipped with an embedded numeric keypad, featuring a Num Lock, Scroll Lock and Caps Lock LED display.

Quiet Membrane Key Switch

The membrane key switch features more than a five million lifecycle, and is designed with a silicone rubber material, which can reduce noise when typing, offering a faster and quieter typing experience.

POS Keyboards

AKB-310UB

Mini Trackball Keyboard

Built-in Optical Trackball

The integrated trackball eliminates the need for a mouse and saves valuable desk space, with its 800 DPI resolution the optical trackball provides superior accuracy and smooth motion requiring minimal hand movement and no maintenance.

Compact Size

This keyboard is 11.75" wide and is designed with a Windows layout that includes an embedded numeric keypad. This keyboard is a great space saver for all environments and ideal for public workstation.

Quiet Membrane Key Switch

The membrane key switch features more than a five million lifecycle, and is designed with a silicone rubber material, which can reduce noise when typing, offering a faster and quieter typing experience.

AKB-410UB

Mini Touchpad Keyboard

Compact and Portable

Small and lightweight, fits anywhere, extremely portable.

Built-in GlidePoint TouchPad

Easy to use, simply glide your finger over the touchpad.

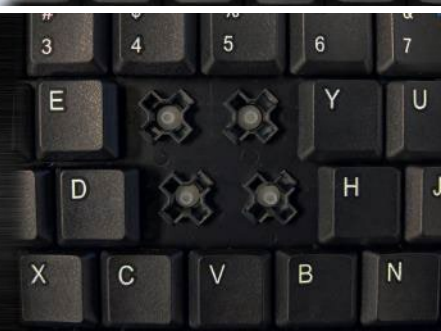

Embedded Numeric Keypad & 12 Function Keys

Includes embedded numeric keypad and 12 function keys.

Membrane Key Switch

The quiet membrane keys offers you fast and comfortable typing and a lifecycle of more than five million keystrokes per key. Low-profile keys for quieter typing with a laptop key feel to it.

AKB-425UB

Mini Touchpad Keyboard

AKB-425UB-MRP

Touchpad Keyboard w/ Rackmount

Built-in GlidePoint TouchPad

Featuring a GlidePoint™ touchpad by Cirque®, the AKB-425UB supports essential gestures such as scrolling, tap to click, and dedicated left and right click buttons, all with pinpoint precision.

Compact 1U Design

This keyboard is designed according to EIA-RS-310C specification, which is considered the standard specification for 19" racks. This makes the AKB-425UB practically mountable to any rackmount drawers and meets many of the industrial environment requirements.

Membrane Key Switch

The quiet membrane keys offers you fast and comfortable typing and a lifecycle of more than five million keystrokes per key.

Multimedia and Internet Hotkeys

Control your home entertainment functions with the built-in multimedia and internet features on the keyboard.

POS Keyboards

AKB-510RB

Mini Keyboard with Smart Card Reader & USB Hubs

Smart Card Reader and USB Hubs

Mini Keyboard with Smart Card Reader and USB Hubs features a 78 key mini keyboard layout with a built-in smart card reader for identification systems.

Built-in 2-Port USB Hubs for Convenience

2-Port USB Hubs adds easy access and convenience for input devices like flash drives or a mouse.

Compact Size

This keyboard is only 11.75 inch wide and is designed with a Windows Key layout that includes an embedded numeric keypad. This keyboard is a great space saver for your home or office. This keyboard is ideal for use in POS stations, sales, or information kiosks, warehouses, manufacturing environments or anywhere space is limited.

Scissor-Switch Technology

5 Million keystroke lifecycle for a quiet and fast typing experience.

POS Keyboards

AKB-630SB-TAA

USB Wired Industrial Keyboard with SCR

Smart Card Reader (SCR)

Brings extra security and ease for identification systems, secure web applications, and secure logon. Due to its secure nature, smart card keyboards are extensively used by industries like retail, healthcare, e-commerce, and government agencies.

Antimicrobial

Antimicrobial/Medical Grade

Prevents harmful bacteria from growing on the device.

Multimedia and Internet Hotkey

Control your media player and browse the Internet with just one key using the built-in Multimedia and Internet hotkeys for easy access to your favorite media or websites.

Quiet Membrane Key Switch

Membrane key switch technology is a top of the line design when it comes to keyboards. With the smooth quiet action of the membrane keys, you can input faster than you ever imagined smoothly and quietly with minimal clicking and noise. In addition, the key switches are rated at 5 million keystrokes with a 45-50 actuation force.
