**Built-in Smart Card Reader**

The built-in Smart Card Reader brings extra security and ease for banking transactions, identification systems,secure web applications, and secure logon. Due to its secure nature, smart card keyboards are extensively used by industries like banking, healthcare, e-commerce, and government agencies. This device supports multiple international standards including ISO7816 for IC card standard, PC/SC 2.0 for Windows Smart Card standard, Microsoft WHQL, EMV for Europay MasterCard Visa standard and USB-IFCCID standard.

**Ergonomic Shape**

The design of this keyboard with gently sloped shape, encourages natural position of hands, wrists, and forearm for maximum comfort and long use.

**Keyboard Split Key Design**

Standard keyboards force your hands to be close to each other while split key keyboards create a wider distance between your hands. This distance helps alleviate strains on the neck and back that would otherwise build up using standard keyboards.
