## LIMITED WARRANTY

Adesso® provides a one year limited warranty for all of its products against defects in materials and workmanship.

During this period, Adesso® will repair or replace any product which proves to be defective. However, Adesso® will not warrant any product which has been subject to improper handling, abuse, negligence, improper installation or unauthorized repair. The warranty will not cover products installed with components not approved by Adesso® and products where the sealed assembly trace has been broken.

If you discover a defect, Adesso® will, at its option, repair or replace the product free of charge, provided you return it during the warranty period with freight charges pre-paid to Adesso®. Before returning any product, you must obtain a Return Merchandise Authorization number (RMA). This RMA # must be clearly marked on the outside of the package you are returning for warranty service. Be certain to also include your name, shipping address (no PO Boxes), telephone number, and a copy of the invoice showing proof of purchase in the package.

OVERVIEW

Qi Charger   USB Cable   Quick Guide

DESCRIPTION

Cable Port

LED light

Closed   Stand Mode   Built In Stand

④

GETTING STARTED

1. Plug in the USB cable into the charging pad.

   WARNING: Do not charge your phone if there is an extra metal plate attached, or if your phone case contains metal. If the charger becomes hot, move the phone or device off the charger.

2. Set your Qi Charging Compatible device on top to begin charging. Your device should show that it is charging, and the LED light on the charging pad will illuminate to indicate that it is working.

3. If your device does not begin charging be sure to check the connections between the charger and the wall socket.

⑤

GENERAL QUESTIONS/FAQ

What is this compatible with?
Any Qi Charging compatible device.

My charging pad isn't working. What do I do?
Check to make sure the cable is completely plugged in to the charging pad. Also check the wall socket to make sure it's not loose. If it doesn't work, try another socket.

What kind of cable is the charging cable?
It can charge through most material up to 3mm thickness. Cases that contain metal will interfere with charging and will not work with this charging pad.

Does this charging pad need to be plugged in to work?
Yes.

How fast will this charge my device?
That rate of charge will vary depending on your device.
